A new and artistic idea has been introduced at dinner parties lately. The knives and forks are all different, and each one made after some special design. Diminutive copies of antique Gorman and Turkish swords serve the guests mesculine for knives, matched with tiny deggers of Italian patierns given to those of the sex feminine.

Admiral Hornby sends to the Daily Tele-

graph an interesting calculation as to the number of ironolads that would be required adequately to blockede the French fleet in Toulon. Our modera ironclads have a total coal endurance for thirty two days, but, after allowing for contingencies, they can only cruise off an enemy's port fourteen days:-"In other words, to keep one ship always off Tonion, we require a second to relieve her every fortnight. To maintain sixteen ironclads craising off Tonlon we must have thirty-two in the Mediterranean, but we have only twenty-eight all told of seagoing ironclads." Now Toulon is only one port, and France has many. If blockeding one port more than exhausts all our stock of ironelads, is this not another proof that blockading is almost as obsolete

as the trireme?

A ghastly but interesting relic has just been brought to Serajevo from where it has long laid under the shadow of the Hum Mountain, near Jaitza: the last King of Bosnia, Stephen To- Chinese Imperial Loan of 1884 B-5 per cent It is understood that the bombardment of macsevics, was there laid to rest at the end of his unhappy life, and now, when he might have hoped that his dust would have returned unto dust, his skeleton has been unearthed and taken to Chinese Imperial Loan, 1886 E-11 per cent Serajevo, where the different parts are to be The Senate of the United States has adopted joined together at the museum. Few of them, however, can exceed in horror the one brought to our notice as having A project has been submitted to the Marquis lately been perpetrated in an out of the way spot of Russia named Scheberschin. A short time after the burial of a much esteemed Jewish inhabitant of the place his grave was found open. A little distance off lay his skeleton, from which every scrap of flesh had been removed. This terrible discovery naturally caused the utmost consternation in the locality, and the inquiry which was set on foot resulted in the amount of which has not yet transpired, for authorship of this revolting deed being traced to two men of evil reputations. They ultimately confessed that, with the flesh out away from the corpse, they hoped to make an cintment which would have the power of making invisible those who rubbed their bodies with it. Whence this superstitions belief arose is not known; but wholek the miscreants intended to put the powers of Toxio the cintment to the test, so as to commit burglaries with impubity.

According to a telegram from Philippopolis, Bolinso 29.91
the brigands who carried off Messrs. Landler Manils 29.61 and Binder from Bellova, have been again pursued by the military, and have fled into the remoter mountains. At the instigation of the Austro-Hungarian Consul, the pursuit has now ceased, lest it should endanger the lives of the captives. Herr Landler's brother-in-law has written to Vienna, stating that the ransom asked Landler, and £1,000 Turkish for Herr Binder. The brigands also demand six Martini rifles, ammunition, shirts, perfumed scaps, embroidered stockings, meerschaum pipes, and other articles. The relatives of the prisoners have purchased the rifles, but the Bulgarian Gavernment has The Order in Council authorising the procla- prohibited their delivery, and stops all messeuhis having thwarted their plans some time ago. included several high functionaries. POST-OFFICE NOTICES.

When Correspondence has been mis-sent or delayed (both of which are liable to happen occasionally) all that the addresses need do is to note on the cover, Sent to ____, or Received at 7 p.m., or as the case may be, and forward it. without any other writing whatever, to the Postmaster-General. This should be seted on the first time cause of complaint occurs; it is mistake to let such matters pass for fear of giving trouble, a course which generally gives more trouble in the end.

The Postal Guide for 1867, revised to date will be found in the Daily Press Directory. p. 385 large edition, p. 701 small edition. This is the only authorised complete Summary of Postal information published in Hongkong.

The authorised List of Mails issued in connection with this paper is the one published twice each day in our Extra, which is always corrected to a much later hour than that given
